

Mason Age 13

My Favorite Things:

I like video and board games. I like spending time with family. I like sports, especially basketball, soccer, and football. I like the outdoors. I am into magic and magic tricks.

Things I do not like:

I don't like people touching my belongings without permission. Peers instigating me! Not really into arts and crafts. Do not like tomatoes and olives.

Favorite Foods:

Pizza. Cheeseburgers. Kraft Mac and Cheese. I love ice cream!

What I want in a family:

I want a family I can spend time with! We can play and talk. We can be active together.

What I want families to know about me:

I like variety. Do not want to do the same things over and over. I really want to spend time with my new adoptive family. I like to be active and hope you are too!

What we want families to know about the youth:

Mason can be a very good advocate for his needs. He is ready for a family. He comes from large extended family (siblings) and wants to stay in touch with them. A family that will continue the treatment process with him. He is a people pleaser and really enjoys being around others. He can be a role model for others. He is excited to be adopted and hope the family is just as excited.
